Preparing for future

About us

An initiative by a group of engineers from DTU, IPU & IIT to promote the idea of skills and skillset, that would make students financially independent within 3 to 6 months. We believe in starting at a very crucial age (as youngsters being the age group 16-24) and possessing an excellent mindset & creativity.

Building a network, possessing worthy skills & starting early will ultimately open a lot of opportunities. Spending an hour a day from the very beginning of their youth would be better than spending 8 to 10 hours a day at the peak of their careers.

Our mission is to create the creators, job givers instead of job seekers.

Our offerings

Entrepreneurial Symposium

2 MONTHS PROGRAM

Web Development
Duration : 6 weeks   Price : INR 6000/-

App Development
Duration : 6 weeks   Price : INR 6000/-
